

SCULPTURE NEVILLE

A stylized, light gray sculpture of a bear, possibly a grizzly bear, is positioned in the center. The bear is facing right, with its head turned slightly towards the viewer. The sculpture is composed of several flat, geometric shapes, giving it a modern, abstract appearance. The bear's mouth is open, revealing a brown interior. The bear's legs are also stylized, with the front legs being more prominent. The entire sculpture is set against a dark teal background.
